

To: Delta Protection Commission

From: Cindy Darling, CALFED Delta Outreach Coordinator

Subject: CALFED Update

At the Commission meeting this month, CALFED staff will provide a brief update on the CALFED Bay-Delta Authority, Proposition 50, the CALFED annual report, as well as implementation of the various CALFED program elements in the Delta.

The CALFED annual report will include a section on each of the five CALFED regions, Sacramento, San Joaquin, Delta, Bay, and Southern California. These regional sections will include a brief description of the region, a summary of the general interests of the region and how they relate to statewide interests, and information on how implementation is being coordinated in the region. In addition, it will include highlights of projects or programs being implemented in the region. We are seeking input from each region on the information for that area. A draft of the page describing the Delta is attached. Commissioners are invited to provide input on how the region and DPC are described, how the interests of the region are portrayed, and on how the projects or programs are being highlighted.
